## Summary

IT professional with 5+ yrs. Experienced as a Data Analyst with a demon-strated history of working in the information technology and services industry. Skilled in SQL, PowerBI, Microsoft Excel, Data Visualisation (Tableau), Data Mining Techniques, Data Cleaning Techniques

By Profession - Data Analyst

I always loved creating things, right from school. When computers and internet became common place, I realized I loved browsing, researching, and playing with Data. My interests took me from being a engineer to a Data Analyst/BI Developer/Data Scientist/Machine Learning Engineer

Everything I've learned along the way is helping me in adding greater values on my work or you can say Love for Analysis.
